

# Alliance with the Enemies & Issue of Non-Compliance with Islam

## The fake Muslims & the crimes

Allah Sub'hana wa Ta'la has revealed His Own prescription for the global peace as well as for humans' salvation in *akhira*. Such peace and salvation come only through full enforcement of sharia, *hudud*, shura, jihad, pan-Islamic brotherhood and unity –the elements of Qur'anic prescription. There exists no other option or roadmap. Faith in Allah Sub'hana wa Ta'la and following His Qur'anic roadmap –*siratul mustaqeem*, are the indispensable components of the same package. Full enforcement of sharia and hudud in all segments of life is indeed an illustrative marker of belief in Allah –Sub'hana wa Ta'la. Boasting *iman* in public is entirely fake if one disregards the Qur'anic prescription and adheres to non-Islamic faiths or ideologies as the provider of law, code of governance, education, morality and salvation. Such adherence to non-Islamic faiths or ideologies is *shirk* –an unpardonable sin. It is indeed an act of polytheism. Allah Sub'hana wa Ta'la may forgive every other sin but not *shirk*. The implication of such shirk is huge. Not only does it deny or belittle the Qur'anic roadmap –the greatest blessing of Allah Sub'hana wa Ta'la for the mankind, but also glorify the corruptive ideological inventions of the devils.

Having faith in non-Islamic ideologies or beliefs, one can't engage in the assigned Qur'anic mission of enjoining the right and eradicating the wrong. For that, full ideological compatibility with Islam is crucial. Moreover, full engagement in such a mission is the sole key for salvation both here and in the hereafter. Only this way, one can find peace, justice, tranquillity and other benefits of Islam and enjoy a safe and

supported journey in a Muslim land towards the paradise. But, it is a great loss and calamity that one can't think of such salvation under the occupation of the evil forces like nationalists, racists, fascists, monarchists, secularists, capitalists, socialists, idolaters and other non-Islamists. Nor can one achieve such salvation through mere rituals like five-time prayer, month-long fasting, haj, and charity. For that, practice of sharia is indispensable –as was practised by the prophet (peace be upon him) of Islam and his companions.

It is also a fact that the occupying forces of evil never allow any space to practise the Divine prescription of eternal salvation. Because, the rule of sharia means the end of their occupation. Moreover, enmity to sharia is not a minor crime; it is the worst crime on earth. It amounts to stand against Allah Sub'hana wa ta'la's design. Hence, more disastrous than dropping nuclear bombs. Nuclear bombs kill people, but do not take the dead to infinite hellfire. But the project of dismantling sharia does that heinous crime quite massively. It dismantles the whole project of Allah Sub'hana wa Ta'la to deliver endless eternal benefit to the whole mankind. Not only it obstructs the Qur'anic mechanism of delivering the peace and justice to the people, but also blocks the roadmap to the paradise. It is indeed a flagrant war against Allah Sub'hana wa Ta'la.

### **The worst criminals with a Muslim name**

Whoever stands against sharia, is indeed the worst criminal. He commits crime not only against the Almighty Lord, but also against the whole mankind. In fact, such crime is more damaging than thievery, robbery, thuggery and killing an individual. Such soldiers of falsehood indeed obstruct the Divine road for justice. Allah Sub'hana wa Ta'la has put some

distinctive labels for them: they are branded as *kafir*, *zalim* and *fasiq*. These three Qur'anic jargons came in the following three Qur'anic narratives: i). *man lam yah'kum bi'ma anjalallahu fa'ulaika humul' ka'firun* (meaning: those who do not run judiciary as per revealed law are ka'fir –verse 44, Sura Al-Maida); ii), *man lam yah'kum bi'ma anjalallahu fa'ulaika humuz' za'limun* (meaning: those who do not run judiciary as per revealed law are za'lim –verse 45, Sura Al-Maida)); iii), *man lam yah'kum bi'ma anjalallahu fa'ulaika humul' fa'siqun* (meaning: those who do not run judiciary as per revealed law are fa'siq –verse 47, Sura Al-Maida). These Qur'anic labels are indeed the most definitive markers for those who will enter into the hellfire for their rebellion against sharia. Five times prayer, month long fasting, haj or building hundreds of mosques and madrasahs and giving millions of dollar as charity can't compensate for such sins of rebellion against the law of Almighty Lord.

Before the advent of the *kuffar* colonial rule in the Muslim World, even the worst Muslim despots in the ruling dynasties of the Umayyad, the Abbasids, the Mughals, the Mamluks, and the Sultans didn't dare dismantle sharia from the judiciary. In the judicial system of every Muslim land of the Middle East, India, Africa and the South East Asia, only the sharia law had the access. In fact, the Muslim didn't know any other law apart from sharia. The crime against the law of Almighty Lord was firstly committed by the occupying colonialists; and now it sustains in almost every Muslim country because of occupation by their ideological cum political mercenaries.

### **The war against sharia**

Terrorism always works as a coercive tool in the hand of the despotic rulers. The colonialists used it against the people

of the occupied lands. Now, in the Muslim World, the occupying despots use it, too. They frame laws and announce presidential decrees to support and protect their occupation. Such laws make them immune against any accountability. So, General Abdul Fattah al-Sisi in Egypt, President Bashar Assad in Syria, King Salman of Saudi Arabia, Sheikh Hasina in Bangladesh and other dictators can kill as many people as they wish. The US, the UK, Russia and other arm producers continue to supply more destructive arms to these despots to enhance their killing power. Killing capacity of these despots now decide the fate of the Muslims' politics, judiciary, law, morality, culture and history. They deem it crucial not for the benefit of the common people, but for their own survival. They do not bother to take any brutal route that would serve their occupation. The law-enforcing agencies in the Muslim World are focused only to implement the coercive laws and deliberately ignore the Qur'anic laws. Those who want to practise sharia, shura, *hudud*, *khilafa*, jihad and other Islamic basics are labelled as terrorists. In the name of so-called rule of law, they use every oppressive tool to eliminate them.

Spreading lies has always been the most commonly used weapon against the Divine Truth. The enemies of Truth spread lies against Prophet Isa (peace be upon him) and even against his mother to dismantle his mission of enforcing sharia that was revealed to Prophet Musa (peace be upon him). Today, they spread malicious lies against anyone who stand for sharia. They call them extremist and terrorist. Whereas, sharia is the part of simple Islam; it was indeed the integral part of Prophet Muhammad's (peace be upon him) mission. Hence, how it can be called extremism or terrorism? On the contrary, every act of an occupying war is terrorism. It kills innocent people. The US-led coalition, Russia and other imperialists consider such war as their own monopoly. In its war of occupation, the USA has dropped more than 21 thousand bombs in Iraq and Syria since 2014.—(Al-Jazeera English broadcast, 27/05/17). The US-led coalition has killed more than a million

in Afghanistan, Iraq, Syria and Yemen; turned hundreds of cities into rubbles. It is the most monstrous crime that took the savage war to every household and evicted more than 5 million people from their home. What would be the worst terrorist act than such state-run brutality? But they get immensely terrified when the same terrorism visits their own streets!

### **Neglecting the occupation**

Rebellion against the Divine prescription leads to other terrible crimes. Then, rebellion against His Vision, Mission and Objectives becomes the part of the culture, politics, warfare and even religious practice of the common people. In such a milieu of rebellion against sharia, the great virtue like ending the occupation of the evil forces gets neglected. Moreover, fighting against secularism, monarchism, racism, nationalism, fascism, capitalism, socialism and other evil ideologies also turns trivial or unimportant. Even the mullah, the imams, the sheikhs, and the *ulama* stay away from any confrontational role against the forces of corruptive ideologies. Amidst such animosity against Allah Sub'hana wa Ta'la's and His rule, the ruling despots even deny any survival space for those who want to practise sharia, *hudud*, *shura*, *khilafa*, jihad and other basics of Islam. Instead, in order to make people fully fit and attuned with the anti-Islamic politics and selfish war of their own survival, they de-Islamise the beliefs, the practices, culture and rituals of the common Muslims. In order to attain such goal, they deploy intense social, political, educational and cultural engineering with a strong anti-Islamic mould.

### **Calamities of the anti-Islamic rule**

Under an anti-Islamic rule, true Islam –as was practised by

the early Muslims becomes the worst casualty. They pave the way only for causing deviation from Islam; thus opens doors for the hellfire. This is indeed the greatest calamity of any non-Islamic rule. Hence, in Islam, nothing is more important *ibada* than dismantling such corruptive rule. It amounts to freeing people from eternal hellfire. This is why, dismantling the non-Muslim occupation of any country has never been described as the Muslim occupation; rather labelled as *fathah* (opening) of its land for Islam. Ending the occupation of the evil forces and opening the Divine road (*siratul mustaqeem*) towards the paradise is indeed the greatest virtue on earth. It is the holy war in Islam. Those who sacrifice their life in such war –becomes Shaheed, get direct entry into paradise. No other good deed brings such reward.

### **Alliance with the enemies**

Struggling and sacrificing wealth and life for the Divine mission is the most powerful key to receive mercy and forgiveness from Allah Sub'hana wa Ta'la. Such mercy and forgiveness are more valuable than all that a man can gather on earth. Even the whole planet filled with gold will not equal to it. So it is revealed, "And if you are slain in the way of Allah or you die, certainly forgiveness from Allah and mercy is better than what they amass."–(Sura Al-Imran, verse 167). The holy Qur'an also reveals that those who die in the way of Allah Sub'hana wa Ta'la are the people who stay alive even after they are killed. They even receive regular sustenance. Therefore, Allah Sub'hana wa Ta'la made it *haram* (forbidden) to call them dead. It is revealed, "And reckon not those who are killed in the way of Allah as dead; nay, they are alive and provided sustenance from their Lord."–(Sura Al-Imran, verse 169).

Because of strong *iman*, most of the companions of the prophet (peace be upon him) could assimilate with the above Qur'anic message. They were ever-ready to do every things in the way of Allah Sub'hana wa Ta'la. Hence, they could passionately take the route of sharia, *hudud*, shura, jihad and martyrdom. The epic-making success of the early Muslims indeed owe to such compliance with the Divine roadmap. They could put into practice every word of these Qur'anic laws. But today, the Muslims live with a different agenda. They claim to be Muslim, but struggling and sacrificing in the way of Allah Sub'hana wa Ta'la seldom receive any priority. Rather, they pursue their own selfish agenda. For their personal gain, they even compete each other for an alliance with the established enemies. Such opportunism makes them easily compatible even with the war mongering imperialists. Because of them, the imperialist get free access to the heartland of Islam –as they could enter into Saudi Arabia, Iraq and Syria. Thus, the corrupt ruling clique of the Muslim World appear as the ugliest enemy of Islam. Islam that prescribes sharia, shura, *hudud*, *khilafa*, jihad and trans-ethnic Muslim unity, is perceived as a lethal challenge to their rule. Even Islamophobia runs very deeper in their midst! They even forge close alliance with the worst enemies to stop Islam's emergence. 27/05/17, Edited on 2.01.19)
