

The Qur'anic Strategy against the Evil & the Strategy of Treachery of the Muslims

The treachery

The several hundred years' downhill course of the Muslims hasn't ended yet. Rather, has gained new speed to take them to a new low. The ongoing deaths, rapes, destruction, occupation, and cleansing of the native Muslims are setting context for further decimation and humiliation of the Ummah. A new generation of Sykes and Picot (*Sykes and Picot* -the two insiders of the British and the French colonial establishment who drew the current map of the disintegrated Middle East at the time of World War I) are drawing up a new map for further fragmentation of the Muslim heart land to fit into their new imperialistic agenda. Scores of Sharif Hussain (*Sharif Hussain: the Ottoman Governor of Hejaz who betrayed the khalifa* and worked with the British Army in 1917 to bring colonial occupation that caused creation of Israel and fragmentation of the Middle East) are already working with the new brands of Lawrence of Arabia (*Lawrence: a British Army Officer, known for his deceitful role in igniting the Arabs revolt against Osmania khilafa*) to prolong the new colonial occupation of the Middle East.

Now, the success of the enemies is so huge that true Islam -as revealed in the holy Qur'an and practised by the holy prophet (peace be upon him) and the early Muslim, exist nowhere in the Muslim World. It is indeed the number one failure of about 1.5 billion Muslims. The failure is so total that one can discover only from history book that sharia, *shura*, *hudud*, *khilafa*, justice based on Qur'anic law, trans-ethnic Muslim brotherhood and jihad in the way of Almighty Allah were the integral part of the golden early days of Islam. It is worth noting that

today's Muslims are little concerned about such missing fundamentals of Islam; rather show violent incongruity cum enmity against any attempt of revival of such obligatory Islamic basics –as Islamists are facing under the secularists' occupation in many Muslim countries. In such a state of abrogation of sharia, *hudud*, *khilafa*, jihad and other basics of Islam, how a Muslim -who has an iota of love for his Almighty Allah can pass a single day or night with mental peace and complacency. Becoming a Muslim means to be an exclusive member of the party of Allah –the Almighty Lord. And it is a total commitment. That implies that he must dedicate his time, energy, money and even life so that His *deen* (the code of life) prevails over all the different brands of falsehood. Therefore, how can he join the secularist, nationalist, monarchist, socialist or imperialist camps to fight their wars against Islam? But it is the stern reality that there exist hundreds of thousands people in the Muslim World who are working hand in hand with the foreign infidels to fulfil their anti-Muslim agenda. These home-grown Trojan horses are working since the colonial era. The ongoing decline of the Muslim *Ummah* indeed owes to these inimical insiders.

It is not difficult to understand that a catalogue of causes worked together to bring down the Muslims to the current quagmire. But the root cause is the betrayal of the core agenda of the Muslims' survival –prescribed by Allah Sub'hana wa Ta'la in the holy Qur'an. Here, the crime is huge; it is indeed the ugliest treachery against the greatest transaction that has ever been made by Allah Sub'hana wa Ta'la with any people. The text of the transaction comes as follows: "Surely Allah has purchased from the believers their life and their property for this that they shall have the paradise; and they fight in Allah's way, so that they kill and get killed; a promise which has been binding on Him in the Taurat, and the Injeel and the Qur'an; and who is more faithful to his covenant than Allah? Therefore, rejoice in the pledge which you have made (with your Lord); and that is the greatest

achievement.”—(Sura Taubah, verse 111).

The Divine transaction

The value of the above deal can't be measured in material term. Mountains of gold can't get near to its worth; its value is invaluable. In the above deal, Allah Sub'hana wa Ta'la pledges to offer a house in the paradise. A house in the paradise can't be bought even by trillion tons of gold; can only be earned by full belief in Allah Sub'hana wa Ta'la and sacrificing the wealth and life in full practice of His *deen* (the Qur'anic code of life). Thus, has been kept within in the reach of a very poor man. The transaction between Allah Sub'hana wa Ta'la and the believers worked successfully in the days of the early Muslims; and had the ground breaking impact. As a result, the deal could accomplish the finest and the most remarkable revolution not only Muslims' personal life but also in the whole human history.

The whole focus of survival of these early Muslims was only to please Allah Sub'hana wa Ta'la. Therefore, they could build the unshakable moral force; and could raise an army of the death-defying people to fight the evil forces. Their success was huge. Not only they could eradicate the evil forces from a large part of the world, but also could raise the finest civilisation on earth. Changing people's faith, culture, ideology and the life style is the most formidable task in any segment of history; even cow, snake or idle worshiping paganism causes more intense and more durable addiction than the strong narcotics.

There is no substitute of a powerful fighting force. Without such a strong force, even the best man on earth and his most truthful ideology can't get any place on earth. In fact, in absence of such a force, the great messengers like Prophet Ibrahim (peace be upon him), Prophet Musa (peace be upon him),

and Prophet Issa (peace be upon him) couldn't prevail over the contemporary evil forces. Whereas, the most evil ideologies of the human history like colonialism, imperialism, nationalism, racism, fascism, communism and paganism could make history of long-lasting successes because of strong army. In such context, Prophet Muhammad (peace be upon him) set an exemplary example how to raise an army to serve the cause of the divine Truth and defeat the evil forces. Which is why he stands as the best model for the mankind in all aged.

The Islamic strategy

The followers of the wicked ideologies never give any space for Islam. The history is full of such wickedness. In order to eradicate these horrendous criminals, Allah Sub'hana wa Ta'al has His own strategy. He wants to cut the roots of these evil mongers not by the angels but by the hands of those who join His Army of the believers. The holy Qur'an is very explicit on this issue. To execute that strategy, Jihad in His Way thus gets obligatory on all believers. Such a strategy has been repeatedly mentioned in the holy Qur'an. And for raising such a Divine Army, the deal between Allah Sub'hana wa Ta'la and the believer –as revealed in Sura Taubah, indeed works as a recruitment tool. Whoever fulfils the deal, gets the promised key for the paradise. Since no man or woman has ever seen the paradise, it is beyond humans' ability to make a genuine guess on the gain of a believer in the transaction. It is an exclusive domain of All-Knowing Allah Sub'hana wa Tala; and the All-Knowing Lord describes it as the greatest achievement for a believer. The gain is so huge that Allah Sub'hana wa Ta'la asks every deal-making believer to celebrate it. The above verse thus makes a ground-breaking impact on the conceptual premise of a true believer. It creates a tremendous moral cum spiritual force in him; could even make him a moving missile into the thick of an enemy army. Since his life and wealth are already sold-out to his Almighty Lord, a Muslim has

nothing to lose in jihad; rather gets a chance to win a huge world of plenitude both here and in the hereafter. Thus the deal works as a powerful incentive to drive him directly into the paradise. This is why only three thousands Muslims could face more than one hundred thousand Roman soldiers in the battle of Mubah. And only 17 Muslim soldiers could free the huge state of Bengal from the *kuffar* occupation in the early year of thirteenth century.

Humans are always moved and motivated by the prospect of better gains. Such a core element of human character is not unknown to the All-Knowing Creator. If a man is given a salary of 20 million instead of 20 thousands, then the most powerful incentive comes to his heart. His devotion, dedication and love for doing the job get sky high. He will do everything to please his paymaster. Every quality moment of his life, every best bit of his talent and every skill under his possession will be invested to improve the performance. In fact, all of his physical, intellectual and professional abilities will be deployed to please his employer. He will not leave the job at his work station; rather will carry it in his head even while he is in the living room, bedroom or in the kitchen. Even while walking in the street or driving the car or taking food and drinks, the same thought that how to excel in doing the job works in his mind. If needed, he will not hesitate to sacrifice even his life. Even for a salary of few hundred pounds, thousands of Arab, African and Indian mercenaries fought bloody wars and even sacrificed their lives for their British, French or Italian colonial masters -especially in the two World Wars. Due to such human nature, culture of mercenarism flourished even in the Muslim lands. Even now, hundreds of thousands of so-called Muslims work as mercenaries to sustain the enemy occupation in the Muslim lands.

The compliance & the glory

The Muslims attained the highest glory in the whole history. But such glory didn't descend on them from the sky like *manna* and *salwa*. It is indeed the reward of full compliance with the deal that Allah Sub'hana wa ta'la made with the believers. They will receive more reward in the hereafter. The worth of the deal can't be measured by trillions of dollars or mountains of gold; one can't put any value on the heavenly gain. It is invaluable. A drop of water can be compared with the water of all the seas and the oceans; because, both are finite. But one can't make a comparison between the worldly gains with the gains in the hereafter. Since the gain in the hereafter is infinite, no amount of worldly achievement is comparable to that. One can't be a true Muslim with an iota of doubt about the truthfulness of the transaction. Since fighting in the way of Allah Sub'hana wa Ta'la is the part of the deal, fighting spirit in His cause comes spontaneously in Muslims' life as the part of faith; and jihad becomes an integral part of the Muslim culture. This is why one can't find a single companion of the prophet (peace be upon him) who didn't take part in war against the enemies. Of those who were not physically disabled, the participation in jihad was 100 per cent; and more than 70 per cent of them became *shaheed*. The prophet (peace be upon him) himself led 27 wars and he was badly wounded, too.

Jihad was such an integral part of the early Muslims' life that it stood as the common marker to identify the *munafiqs* from the true Muslims. The prophet (peace be upon him) too, gave clear directives to know the *munafiqs*. According to the prophetic narrative, even a claimant of faith in Islam is a *munafiq* if he hasn't taken part in jihad in the past and doesn't intend to do so in the future. Mere belief in Allah Sub'hana wa Ta'la can't generate such a paradigm shift and the sacrificing spirit; even the *kuffars* of the Arabia had belief in Almighty Allah. Abdullah (meaning: slave of Allah) was the popular name even before the birth of the Prophet Muhammad (peace be upon him). Even, his father's name was Abdullah.

Today, one and half billion Muslims believe in Allah Sub'hana wa Ta'la too. But they couldn't be the fighting force for Allah Sub'hana wa Ta'la. On the contrary, they embraced and fought for the political, ideological and cultural concepts of the *kuffars*. As a result, nationalism, secularism, fascism, capitalism, monarchism and other *kuffar* ideologies could get the victory in the Muslim majority countries and Islam stands badly defeated. Their *iman* didn't go deeper and utterly failed to make any paradigm shift or conceptual change. It is indeed the robust reflection of their disbelief in the transaction with Allah Sub'han wa Ta'la. What could be worst strategy of treachery against the Qur'anic transaction?
