Murder of President Morsi & Death of Democracy in Egypt

The premeditated murder

Allowing an ill person to die in prison without medical care is itself a homicidal crime. Such death is never called natural death, rather a

deliberate murder. It is indeed a horrendous punishable crime; those who are responsible for it must face the punishment. Such a crime has exactly been committed against Dr Muhammad Morsi by Egypt's brutal dictator President Abdel Fattah al-Sisi. In 2013, within one year of the election, al-Sisi removed Dr Muhammad Morsi from the Presidency by a military coup. So, al-Sisi committed another punishable crime by removing the country's first and the only elected President to grab power for himself.

Dr Morsi was known for diabetes and liver disease which required regular investigation and treatment. Any criminal negligence could only precipitate his premature death. It was his basic human right to have the necessary medical care. The Egyptian law and the international law make it an obligatory duty of the Egyptian government to provide such care. But an established killer doesn't care about the legal obligation. Otherwise how could he make a coup and kill the people? Hence deprivation of Dr Morsi's medical care became a reality. Thus, he was forced to die without the treatment. Whereas, his treatment need was so crucial that once he collapsed in his prison cage inside the court because of low blood sugar. In fact, an enemy like al-Sisi could only ignore the treatment and wished his early death.

The pure evil

One can seldom expect any kindness, morality or humanity from a proven mass-murderer, let alone medical care. Al-Sisi deployed the Army to massacre about 1,500 people in Raba al-Adawiya square in Cairo on 14th August in 2013. Whoever luckily survived were put in prisons only to suffer further thuggish torture – both physically and mentally. The fake courts were staged to put people on death penalty in mass. The western government didn't show any interest to stop such brutality of this new Pharaoh. In fact, none of the western governments showed any appetite to look into this massive gruesome cruelty. Rather, the western leaders were seen to rub their shoulders with these brutal killer in Washington, Paris, Rome, Berlin and many other western

capitals. Thus they stay complicit in the crime by supporting al-Sisi to practise his worst fascism against the Egyptian opposition. Only a British MP named Crispin Blunt -the ex-head of the House of Commons' Selects Committee on Foreign Affairs, agreed to make a short visit in 2018 to Egypt –only while he was approached by Dr Morsi's helpless family. The family were desperate to know what is going on to Dr Morsi' health. Al-Sisi was not ready to give such an opportunity to the family or any native Egyptian. The cruelty, inhumanity and immorality of al-Sisi is so extreme that Dr Morsi was allowed to see his family only three times in almost 6 years period.

At the end, Mr Blunt could tell some bare truths in his report on horrendous sufferings of Dr Morsi. He found that Dr Morsi was being deprived of necessary medical care -as entitled as per Egyptian and International law. Mr Blunt predicted that Dr Morsi will die prematurely if he continues to suffer such dire deprivation of the medical care. The Conservative British Government of Theresa May didn't take any heed from such a highly alarming report, rather preferred to sell more arms to feed al-Sisi's killing machine. The other leaders of the western governments that lecture on human rights and higher values continued to do the same. Whereas, if the report was timely and properly pursued, Dr Morsi would have survived the easily preventable death from diabetes and its complication. Since the Islamists are considered foes by the Islamophobic west, the western leaders too, like their friend al-Sisi, wished Dr Morsi's quick death and not a cure. As a result, Dr Morsi had no option but to face a premeditated murder. Whereas the same western leaders embrace the Marxist YPG of Syria and the leftist Mujahedin-e-Khalq of Iran –who have been involved in the terrorist killings of thousands, as friends of the west to promote their agenda in the Muslim World.

The disease & the pathology

While deciding the political priority in the developing countries –especially in the Muslim countries, the western leaders drop issues like humanity, morality, liberty, rule of law and democratic values deep into the bins. They stand only for their selfish whims and

strategic interests. Therefore, while supporting the killer regime of al-Sisi in Egypt or the brutal autocrats of Saudi Arabia, UAE, Bahrain and others, the morality, humanity and other higher values do not work. Rather, these killer regimes look perfectly compatible with their own western imperialistic ideas and values. However, these are only the symptoms of the western disease; the real disease with its inherent pathology lies much deeper. The disease is radical secularism that kills people's faith, spirituality and accountability in the hereafter. And the hidden pathology lies in the absence of faith in Allah –the Almighty Creator and the lack of sense of accountability in the hereafter. Such an evil pathology could prompt people to generate evil ideologies to commit and sanctify even the worst crimes. So the west –the birth place of secularism, could give birth to toxic ideologies like racism, nationalism, colonialism, apartheidism, imperialism, slavery, ethnic cleansing and even genocide –which have always been incompatible with any Divine faith of the east. They could also do the gruesome practice of these evil ideologies and could manufacture even two World Wars to kill more than 75 million people. They even could drop nuclear bombs without any moral remorse.

During the colonial occupation, the European secularists with their moral diseases moved from the birth place to the occupied lands in the east –birth place of all Divine religions. As a result, they could disseminate the western disease to the eastern people –especially among those who closely worked with them and received their secular education and training. So the worst and the most brutal people in the Muslim world are born neither in robbers' dens nor in brothels' wombs, but in the military cantonments and in secular institutions.

In the Muslim lands, the Army cantonments worked as the most fortified cultural islands of the radical secularists and gave zero access to Islamic ideology and culture. So they could emerge as the worst enemy of Islam in Muslim lands. In almost every Muslim country, they have proven to be fully incompatible with ideology of Islam and could be close friend of the imperialists. For example, those who are considered the role model in Pakistan Army -like General Ayyub, Yahiya, Tikka, Niazi didn't join the Army to serve the Muslims or

Islam, but to defend and strengthen the British occupation of the Muslim lands. In 1947, the colonial occupation ended in Indian subcontinent, but the secular belief and culture continued to thrive in the protected and secluded premises of the military cantonments. So the ideologically incompatible military elites trained in the secular cantonments could successfully dismantle the Islamic project of the Indian Muslims in Pakistan. And in 1971, because of their political incompetence they could also dismember the united Pakistan.

Any physical disease like malaria or pneumonia shows similar symptoms all over the world. The same is true with the moral disease. So, the Army raised by the colonial occupiers are showing the same enmity against Islam in Pakistan, Bangladesh, Egypt, Syria, Sudan, Algeria, Libya and other Muslim countries. In Egypt, their toxic venom against Islam and Muslim Brotherhood has made dark pages of extreme barbarity in the Muslim history. The secularist Army dictator Jamal Abdun Naser hanged one of the greatest son of Egypt like Sayid Qutb –the writer of one of the greatest tafseers of the holy Qur'an. And now al-Sisi executing the same barbarity against the current Islamists. In Syria, the Army has turned to be the worst forces of destruction. In Algeria, the Army generals could indeed metamorphose the whole holy Jihad of the Algerian Muslims against the French occupiers into radical secularism cum nationalism. And in Sudan, the Army has badly lost its war against the secessionists of the South, but has launched its brutal war against its own people.

Al-Sisi's crimes & the western complicity

Only because of radical secularism, the western leaders could easily justify their support for all worst crimes of al-Sisi. Because, such an evil ideology disconnect people from any moral obligation and accountability. Because of that, they could also forget al-Sisi's gruesome crime that he committed while dislodging the legitimate President Dr Morsi. In the past, because of the same immorality, the western war lords and leaders could easily justify and sanctify the colonial occupation, genocidal killing, ethnic cleansing, slave

trading and other worst crimes in the occupied lands.

President Donald Trump recently mentioned al-Sisi as a great President doing great jobs against the terrorists. Such appeasement and appreciation for al-Sissi indeed tells a lot about his own moral disease. It exposes his own complicity in the crime through his political and moral endorsement. Such narratives give an expression to the selfish political and economic agenda of the western powers. Of course, al Sisi is doing good jobs for the USA and Israel, but not for the common Egyptians and democracy. He is indeed an Egyptian replica of Adolf Hitter to do all reprisals against his own people. The western leaders call him a force of stability. But what stability? Stability through mass killing? Stability through fake judiciary and election. Such narratives indeed fully exposes the western hypocrisy and complicity in crimes. Whereas al-Sisi has proven to be the perfect model of inhumanity, brutality, extreme fascism in the Middle East. President Trump's appreciation shows how they prefer the brutal dictators to dismantle the democratic institutions in the Muslim countries. Like President Trump, other western leaders too, conveniently forget the facts that more than 60 thousands political prisoners are languishing in Egyptian jails in dire prison conditions.

Al-Sisi is not working alone. He is indeed showcasing all evil forces in the Middle East. He is fighting an unending war not only for himself but also for all anti-democratic and imperialistic forces of the whole Middle East. This is why, his war is rapidly expanding to Libya, Sudan and other neighbouring countries too. This is why he enjoys the support of a bigger global coalition. Unlike the old pharaoh, this new pharaoh is enjoying the full support of the Jews. The USA, Israel, the UK, France, King of Saudi Arabia, Shaikh of UAE, ruler of Bahrain and other autocrats of the Muslim World are also the part of the coalition. In fact, the death of Dr Morsi gave an opportunity to expose their true faces and motives. 20.06.2019

Оформить заявку на получение сертификата можно на официальном сайте Минздрава России по адресу www.minzdrav.ru. Для этого необходимо заполнить анкету, приложить фотографии и документы, подтверждающие квалификацию. Срок действия сертификата составляет 5 лет. После окончания срока действия необходимо пройти курсы повышения квалификации и сдать экзамен. Процедура продления сертификата осуществляется в том же порядке, что и оформление.

Сертификат является документом, подтверждающим квалификацию специалиста. Он выдается на специальном бланке и имеет юридическую силу. Наличие сертификата необходимо для работы в государственных учреждениях, а также для участия в конкурсах на получение государственного задания. Кроме того, сертификат является условием для трудоустройства в частные организации, занимающиеся оказанием медицинских услуг. Стоимость оформления сертификата составляет около 10 тысяч рублей. Эта сумма включает в себя оплату государственной пошлины, а также услуг посредников. Важно отметить, что наличие сертификата не гарантирует трудоустройство. Работодатель имеет право самостоятельно выбирать кандидатов для работы. Однако наличие сертификата повышает шансы специалиста на получение должности.

Экономика Российской Федерации развивается в условиях глобальных вызовов, связанных с изменением климата, пандемией COVID-19, геополитическими сдвигами и технологическими инновациями. В целях обеспечения устойчивого экономического роста и повышения качества жизни населения необходимо комплексно решать задачи модернизации экономики, укрепления институциональной основы и социальной справедливости.

В соответствии с Конституцией Российской Федерации и стратегическими документами Правительства Российской Федерации, в том числе Национальным проектом «Экономика и устойчивое развитие», разработана программа государственной политики в области экономики на 2024-2028 годы.

Целью программы является обеспечение устойчивого экономического роста, повышение конкурентоспособности российской экономики, создание благоприятных условий для развития человеческого капитала и реализации конституционных прав и свобод граждан Российской Федерации.

Основные направления государственной политики в области экономики:

- 1. Модернизация экономики и повышение конкурентоспособности.
- 2. Развитие человеческого капитала и социальной справедливости.
- 3. Укрепление институциональной основы.
- 4. Развитие инновационной экономики.
- 5. Развитие инфраструктуры и устойчивого развития территорий.

Программа государственной политики в области экономики на 2024-2028 годы реализуется в соответствии с принципами:

- законности;
- прозрачности;
- адресности;
- комплексности;
- эффективности;
- справедливости.

Программа государственной политики в области экономики на 2024-2028 годы является основой для формирования государственного бюджета Российской Федерации на соответствующий период.

2019 年 10 月 10 日，国家卫生健康委员会发布了《关于印发国家基本公共卫生服务规范（第三版）的通知》，其中明确了家庭医生签约服务的核心内容和实施要求。家庭医生签约服务是分级诊疗制度的重要载体，是推进医疗卫生服务供给侧结构性改革、提高基层医疗卫生服务能力的重要举措。通过家庭医生签约服务，可以实现对居民的健康状况进行全程、全方位管理，提升居民的健康意识和自我健康管理能力，有效降低重大疾病发生风险，提高居民生活质量。

家庭医生签约服务以居民健康为中心，以全科医生为主体，以团队形式开展，通过签约服务的方式，为居民提供预防、治疗、康复、健康教育、健康管理等综合性医疗卫生服务。签约服务分为基本签约和主动签约两种形式。基本签约由政府主导，为居民提供基本公共卫生和基本医疗服务。主动签约由家庭医生团队主动发起，为居民提供个性化、专业化的医疗卫生服务。

家庭医生签约服务的实施，需要政府、医疗卫生机构和居民共同参与。政府应加大政策支持和资金投入，完善家庭医生签约服务的激励机制。医疗卫生机构应加强家庭医生团队建设，提升家庭医生服务能力。居民应主动参与签约服务，增强健康意识，实现从“治病”到“防病”的转变。

通过家庭医生签约服务，可以实现医疗卫生资源的有效配置和利用，提高基层医疗卫生服务的可及性和质量，为居民提供更加优质、便捷的医疗卫生服务。

二、家庭医生签约服务的意义

家庭医生签约服务的实施，对于推进分级诊疗制度、深化医药卫生体制改革、提高基层医疗卫生服务能力、促进医疗卫生服务供给侧结构性改革、提升居民健康水平和生活质量具有重要意义。

首先，家庭医生签约服务是推进分级诊疗制度的重要载体。通过家庭医生签约服务，可以实现对居民的健康状况进行全程、全方位管理，提升居民的健康意识和自我健康管理能力，有效降低重大疾病发生风险，提高居民生活质量。

其次，家庭医生签约服务是深化医药卫生体制改革的重要举措。通过家庭医生签约服务，可以实现医疗卫生资源的有效配置和利用，提高基层医疗卫生服务的可及性和质量，为居民提供更加优质、便捷的医疗卫生服务。

再次，家庭医生签约服务是促进医疗卫生服务供给侧结构性改革的重要途径。通过家庭医生签约服务，可以提升基层医疗卫生服务能力，优化医疗卫生服务供给结构，满足人民群众多层次、多样化的医疗卫生需求。

最后，家庭医生签约服务是提升居民健康水平和生活质量的有效手段。通过家庭医生签约服务，可以为居民提供个性化、专业化的医疗卫生服务，提升居民的健康意识和自我健康管理能力，有效降低重大疾病发生风险，提高居民生活质量。

1. 2024年11月11日，在“双11”购物狂欢节期间，某电商平台推出了一项名为“双十一狂欢购”的促销活动。该活动旨在吸引消费者，提高销售额。然而，活动期间，该平台出现了严重的服务器故障，导致大量用户无法正常访问和使用平台。

2. 故障发生后，平台立即启动了应急响应机制，但故障持续时间过长，给用户带来了极大的不便和损失。许多用户在购物过程中遇到了商品无法加载、支付失败等问题。

3. 用户对平台的稳定性和安全性表示严重关切。他们要求平台尽快恢复服务，并对此次事故进行调查。同时，用户还要求平台对受影响的用户进行合理的赔偿。

4. 平台方面表示，此次故障是由于系统升级过程中出现的意外情况所致。目前，平台已经完成了故障排查，并恢复了正常运行。平台承诺将吸取教训，加强系统的稳定性和安全性，确保类似事件不再发生。

5. 然而，用户对平台的道歉和赔偿方案并不满意。他们认为，平台在故障发生前并没有充分考虑到系统的稳定性和安全性，这是导致事故发生的根本原因。因此，他们要求平台承担更多的责任，并进行更合理的赔偿。

6. 此次事件再次引发了关于电商平台稳定性和安全性的讨论。消费者在选择电商平台时，应该更加关注平台的运营情况和信誉度。同时，电商平台也应该加强自身的风险管理，提高应对突发事件的能力，确保用户的数据和财产安全。
